- Jira
- Agile (Scrum)
- CI/CD
- Test-Driven Development (TDD)
- APIs RESTful
- SEO
- Performance optimization
- Java
- Spring Boot
- Flutter
- Firebase

LANGUAGE

English - Intermediary
French - Advanced
Portuguese - Native

SOFTWARE ENGINEER

Full Stack Software Developer with experience in developing Web and Mobile applications, working across all stages of the software lifecycle, from requirements gathering to delivery and maintenance. Strong experience in Front-end with React, Next.js, and React Native, and in Back-end with Spring Boot and Node.js, developing REST APIs, integrations with external services, and authentication and authorization systems. Experience with PostgreSQL, Firebase (Auth, Firestore, Storage), and best practices in architecture, performance, and security. Passionate about technology and innovation, I constantly seek to evolve technically and contribute to building scalable, high-quality solutions.

EXPERIENCE

SOFTWARE DEVELOPER (FULL STACK)

Fisgar - Brazil

2025 - Present

- Currently at Fisgar I am working on the platform: <https://fisgar.com.br/> developing, maintaining and adding new features.
- Using technologies such as Next.js, React, Jest, React Testing Library, Node.js, Firebase, Spring Boot, WebSocket, and other technologies in the TypeScript and React ecosystem geared towards the web.

SOFTWARE DEVELOPER (FRONT-END)

Cherry IT - Brazil

2024 - 2025

- I was responsible for the development and leader of the technical team for the frontend of the public investment management system of the state of Ceará, a huge project.
- Implementation of reusable components and custom libraries to optimize project performance and consistency.
- Collaboration with design and backend teams to integrate APIs and ensure product functionality and usability.

CERTIFICATIONS

CCNA(Cisco Certified Network Associate) I

CCNA(Cisco Certified Network Associate) II

Rocketseat Ignite - 2022

Rocketseat Electron - 2022

Flutter Udemy - 2024

SOFTWARE DEVELOPER (FRONT-END)

Sparktech - Angola

2021 - Present

- I was responsible for the development of the Ventus platform in Angola, I led the frontend development team of the Cinemax platform in Angola
- User interface development using React and Next.js.
- Implementation of reusable features and components with React and Typescript.
- Creating cross-platform mobile applications with React Native.
- Integration of RESTful APIs for communication with the backend.
- Performance and SEO optimization in Next.js applications.
- Participation in code reviews and mentoring for junior developers.
- Use electron for some Desktop applications.

SOFTWARE DEVELOPER

Ramos Soft - Angola

2017 - 2020

- C programming logic trainer.
- Develop Desktop applications with Java (Java SE).
- JDBC and MySQL in corporate desktop application.
- Develop web applications with Java (JSP), tomcat server and Mysql.
- Develop web applications with Java (JSF + Primefaces), Wildfly server and PostgreSQL.
- Developer some APIS using Spring Boot, Postgresql and do deployment.

EDUCATION

Bachelor's degree in Computer Engineering

Catholic University of Angola
